## LGBTQ+ Maps Affinity Map

Tumblr, Twitter,

Instagram, google.

They're pretty

ubiquitous and

have a lot of good

data from other travelers

favorite apps

are twitter,

insta, snapchat

Facebook,

Gmail

Reddit

google and

## TRAVEL data

how often with whom purpose Travels Travel for Travels few alone, w/ leisure & times a S/O visit friends year Travels few Travels in Travel for times a group or w/ leisure & S/O year visit friends Typically travels a Travels to travels alone, few times a visit friends w/ S/O, family & family Typically Travels a travels in travels to few times a visit friends groups, w/ year family & family travels a Travel for Typically few times leisure & travel w/ per year visit friends family Travels travels to Travel few visit friends times a w/group, & family family Travels a travels to visit friends & few times a usually travels alone family, liesure year & business Couple Travels for times a leisure & month visiting friends/family Travels Travels for Several business & months out of the year family/friend A couple times a month Business

Trusting of source (includes trusting towards liberal & credible sources) It impacts what legitimacy I give statements that contradict my experience or my education Typically I read into More likely to the writer to make trust liberal sure theyre sources, but credible, otherwise takes things w/ it doesn't affect a grain of salt much

If they're from a

conservative

place I side eye

the article

Likes writing

that is from

someone who

has lived that

experience

Similarities include: LGBTQ+ rights, environment, representation in media, sex ed, reproductive rights, sexual assault justice
